**Beed**

**Energy Conservation Policy**

**Preamble:**

To promote environmental consciousness and holistic development of students, *the* College has adopted an Energy Conservation Policy for an "Environment of educational excellence". The institution aims to realistically and comprehensively reduce energy consumption, assure acceptable indoor air quality and improve energy efficiency in campus through methods that are consistent with a safe, secure, and Eco-conscious campus community. As outlined in this policy, energy conservation will be accomplished by developing a proactive and progressive approach to providing energy efficient, responsible, and cost-effective operations on campus.

**Applies to:**

Each and every stakeholder of the college such as faculty, staff, students and visitors .

**Energy Conservation Practices:**

- Our Energy conservation practices include the replacement of all tube lights with LED tubes, LED bulbs being the most energy efficient lighting option. 100 percent of lighting requirements are met through LED.
- Energy conservation practices and eco-friendly habits are inculcated among students and staff through cautioning them about simple things which are really effective to reduce electricity consumption like students and staff turning off all lights, appliances and electronics not in use.

**Save Energy TIPS to be followed:**

- Activate power management features on computers and monitors so that it will reduce power consumption.
- Go into a low power "sleep" mode on computers and monitors when the students and staff are not working on it.
- Turn off the monitor when the student or staff leave their work.
- Activate power management features on laser printers.
- Whenever possible, shut down rather than logging off.
- Turn off unnecessary lights and use sunlight instead.

  
**IQAC Coordinator**

**Principal**  
Deogiri Pratishthan Sanchalit

- Use LED or compact fluorescent bulbs.
- Keep lights off in CFC halls, classrooms, auditorium halls when they are not in use.
- Use the fans only when they are needed.

### **Waste Management Policy**

#### **Policy Statement:**

The College has adopted the principles of the 'best practicable environmental option' in the delivery of its waste management services. The College applies a waste hierarchical approach, to reduce, reuse, recycle and recover waste products in preference to the disposal of waste. The College recognizes the importance of meeting these legal requirements and to manage its waste responsibly, reduce the volume of waste sent to landfill and maximize reuse and recycling where possible. The College requires all the teaching and non-teaching staff, students, guests and anyone else making use of the premises to comply with this Policy and associated "College Environmental Guidance" to ensure compliance with all waste legislations.

#### **Policy Objectives:**

The objectives of this policy are:

- To ensure that waste management is performed in accordance with all waste legislative requirements, including the duty of care, and to plan for future legislative changes and to mitigate their effects.
- To minimize waste generation at source and facilitate repair, reuse and recycling over the disposal of wastes in a cost-effective manner.
- To provide clearly defined roles and responsibilities to identify and co-ordinate each activity of the waste management.
- To promote environmental awareness in order to increase and encourage waste minimization and reuse.
- To ensure the safe handling and storage of wastes on College campus. To provide appropriate training for teacher, resident, staff, students and other stakeholders on waste management issues.
- To promote holistic approach of waste management in the campus.

#### **E-Waste Management:**

All the miscellaneous e-waste such as CDs, batteries, fluorescent bulbs, PCBs and electronic items are collected from every department and office and delivered for safe disposal. Useful parts of electronic gadgets like hard disk, CPU, monitors, mobile phone charger, CD drive etc have been removed from the old computers for reuse. E-waste collection drive was conducted by NSS. Discussion on E-waste awareness among the students.
