Report on Certificate Course in Web Designing

Academic Year 2019-20

Course: Web Designing
Organized by: Tulsi College of Computer Science and Information Technology
Students Registered: 30

Tulsi College of Computer Science and Information Technology recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

Benefits of the Course

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi College of Computer Science and Information Technology was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

Certificate Course on Web Designing

Academic Year: 2019-20

Organized By: Department of PG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Fundamentals of Graphic Design

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

Unit 2. Web Development Skills

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

Unit 3. Basics of Web Designing

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications

Report on Certification Course: Software Testing

Academic Year 2019-20

Institution: Tulsi College of Computer Science & Information Technology

Duration: 30 Lectures

Academic Year: 2019-20

The Software Testing certification course offered by Tulsi College of Computer Science & Information Technology aims to equip students with essential skills and knowledge in software testing methodologies and practices. This comprehensive program consists of 30 lectures designed to provide both theoretical foundations and practical applications in the field of software quality assurance.

Completing the Software Testing certification course at Tulsi College provides numerous advantages:

- **Skill Development:** Students gain hands-on experience with industry-standard tools and methodologies, enhancing their technical skills and employability.
- **Industry Relevance:** The curriculum is designed to align with current industry standards, ensuring students are well-prepared for the job market.
- **Networking Opportunities:** Participants have the chance to connect with industry professionals and fellow students, fostering a network that can aid in career advancement.
- **Enhanced Career Prospects:** With the growing demand for skilled software testers, obtaining a certification can significantly improve job prospects and open pathways to various roles in software development and quality assurance.
- **Practical Experience:** The course emphasizes practical exercises and real-world case studies, allowing students to apply theoretical knowledge in a practical context.

Upon successful completion of the course, participants will receive a certificate from Tulsi College of Computer Science & Information Technology. This certification serves as a formal recognition of the skills and knowledge acquired during the course, making it a valuable addition to students' professional qualifications.

Report on Certification Course: "Programming in JAVA"

Academic Year 2019-20

Organized by: Tulsi College of Computer Science & Information Technology

Course Duration: 30 Lectures

Completion: Certificates Awarded

The "Programming in JAVA" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental programming skills using the JAVA programming language. This report outlines the course structure, content, and benefits for participants.

The "Programming in JAVA" course provided numerous advantages to participants:

- **Strong Programming Foundation:** Students developed a solid understanding of JAVA, one of the most widely used programming languages in the industry.
- **Enhanced Problem-Solving Skills:** The course fostered critical thinking and problem-solving abilities through practical coding exercises and projects.
- **Career Opportunities:** Proficiency in JAVA significantly boosts employability, as it is a preferred language for many software development positions.
- **Preparation for Advanced Topics:** The course served as a stepping stone for advanced studies in software development, web development, and mobile app development.
- **Hands-On Experience:** Participants gained practical experience by working on real-world projects, enhancing their coding skills and confidence.

Upon successful completion, students received certificates, validating their skills and knowledge, which adds value to their resumes.

The "Programming in JAVA" certification course at Tulsi College of Computer Science & Information Technology was a notable success. By providing a comprehensive understanding of JAVA programming, the course prepared students for various roles in the tech industry and enhanced their employability. The certification awarded upon completion further acknowledges their dedication and achievement in mastering this essential programming language.

Certificate Course on Programming in Java

Academic Year: 2019-20

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1: Introduction to Java

- ❖ What is JAVA?
- ❖ Concept of class
- ❖ Introduction of Object-Oriented Programming concept
- ❖ Features of JAVA 2

Unit 2: Using Data with JAVA programs

- ❖ Constants, Literals, Variables, Keywords, Identifier
- ❖ Data types (Integers, Floating Point, Character, Boolean)

Unit:3 Array and String in JAVA

- ❖ Declaring and initializing an array
- ❖ Using two dimensional and multidimensional arrays
- ❖ Passing arrays to methods, methods of arrays fill, sort, equal, binary search

Report on Certification Course: "Hardware and Networking"

Academic Year 2019-20

Organized by: Tulsi College of Computer Science & Information Technology
Course Duration: 30 Lectures
Completion: Certificates Awarded

The "Hardware and Networking" certification course offered by Tulsi College of Computer Science & Information Technology was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi College of Computer Science & Information Technology was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.

Certificate Course on Hardware & Networking

Academic Year: 2019-20

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Introduction to Computer Networks

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

Unit 2. Network Components

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

Unit 3. Protocols OSI, TCP/IP

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

Unit 4. IP Addressing & TCP/IP– IP Addressing Technique

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

Report on Certification Course: "Basics of Computer"

Academic Year 2019-20

Organized by: Tulsi College of Computer Science & Information Technology
Course Duration: 30 Lectures
Completion: Certificates Awarded

The "Basics of Computer" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental computer skills essential for the modern workplace. This report summarizes the course structure, content, and benefits experienced by the participants.

The course comprised a total of 30 lectures, each designed to cover different aspects of computer literacy.

The "Basics of Computer" course provided several key benefits to the participants:

- **Enhanced Computer Skills:** Students gained practical knowledge of essential software applications, making them more competent in various tasks.
- **Increased Employability:** With basic computer skills in high demand across industries, participants significantly improved their job prospects.
- **Foundation for Advanced Learning:** The course served as a stepping stone for further studies in computer science and related fields, paving the way for more advanced courses.
- **Confidence in Technology Use:** Participants developed confidence in navigating computer systems and the internet, which is vital in today's digital age.

Upon successful completion, participants received certificates, validating their newly acquired skills and enhancing their resumes.

The "Basics of Computer" certification course at Tulsi College of Computer Science & Information Technology was a resounding success. By providing a comprehensive overview of essential computer skills, the course not only prepared students for the challenges of the digital world but also enhanced their employability and opened avenues for further learning. The issuance of certificates further acknowledges the participants' commitment and achievement, reinforcing their confidence in a technology-driven environment.

Report on Certification Course: "Basics of Computer"

Academic Year 2020-21

Organized by: Tulsi College of Computer Science & Information Technology
Course Duration: 30 Lectures
Completion: Certificates Awarded

The "Basics of Computer" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental computer skills essential for the modern workplace. This report summarizes the course structure, content, and benefits experienced by the participants.

The course comprised a total of 30 lectures, each designed to cover different aspects of computer literacy.

The "Basics of Computer" course provided several key benefits to the participants:

- **Enhanced Computer Skills:** Students gained practical knowledge of essential software applications, making them more competent in various tasks.
- **Increased Employability:** With basic computer skills in high demand across industries, participants significantly improved their job prospects.
- **Foundation for Advanced Learning:** The course served as a stepping stone for further studies in computer science and related fields, paving the way for more advanced courses.
- **Confidence in Technology Use:** Participants developed confidence in navigating computer systems and the internet, which is vital in today's digital age.

Upon successful completion, participants received certificates, validating their newly acquired skills and enhancing their resumes.

The "Basics of Computer" certification course at Tulsi College of Computer Science & Information Technology was a resounding success. By providing a comprehensive overview of essential computer skills, the course not only prepared students for the challenges of the digital world but also enhanced their employability and opened avenues for further learning. The issuance of certificates further acknowledges the participants' commitment and achievement, reinforcing their confidence in a technology-driven environment.

Certificate Course on Basic Computers

Academic Year: 2020-21

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Computer Application & Basics

- ❖ Connecting Computer Components
- ❖ Computer Hardware & Software
- ❖ Basic Applications of Computer
- ❖ Components of Computer

Unit 2. Computer Operating System

- ❖ What Is An Operating System
- ❖ Basics of Popular Operating Systems: The User Interface
- ❖ Using Mouse; Using right Button of the Mouse and Moving Icons on the Screen
- ❖ Use of Common Icons, Status Bar
- ❖ Menu and Menu Selection etc.

Unit 3. Word Processing

- ❖ Printing A File
- ❖ Document Creation & Editing
- ❖ Saving
- ❖ Text Formatting

Report on Certification Course: "Hardware and Networking"

Academic Year 2020-21

Organized by: Tulsi College of Computer Science & Information Technology

Course Duration: 30 Lectures

Completion: Certificates Awarded

The "Hardware and Networking" certification course offered by Tulsi College of Computer Science & Information Technology was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi College of Computer Science & Information Technology was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.

Certificate Course on Hardware & Networking

Academic Year: 2020-21

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Introduction to Computer Networks

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

Unit 2. Network Components

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

Unit 3. Protocols OSI, TCP/IP

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

Unit 4. IP Addressing & TCP/IP– IP Addressing Technique

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

Report on Certification Course: "Programming in JAVA"

Academic Year 2020-21

Organized by: Tulsi College of Computer Science & Information Technology

Course Duration: 30 Lectures

Completion: Certificates Awarded

The "Programming in JAVA" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental programming skills using the JAVA programming language. This report outlines the course structure, content, and benefits for participants.

The "Programming in JAVA" course provided numerous advantages to participants:

- **Strong Programming Foundation:** Students developed a solid understanding of JAVA, one of the most widely used programming languages in the industry.
- **Enhanced Problem-Solving Skills:** The course fostered critical thinking and problem-solving abilities through practical coding exercises and projects.
- **Career Opportunities:** Proficiency in JAVA significantly boosts employability, as it is a preferred language for many software development positions.
- **Preparation for Advanced Topics:** The course served as a stepping stone for advanced studies in software development, web development, and mobile app development.
- **Hands-On Experience:** Participants gained practical experience by working on real-world projects, enhancing their coding skills and confidence.

Upon successful completion, students received certificates, validating their skills and knowledge, which adds value to their resumes.

The "Programming in JAVA" certification course at Tulsi College of Computer Science & Information Technology was a notable success. By providing a comprehensive understanding of JAVA programming, the course prepared students for various roles in the tech industry and enhanced their employability. The certification awarded upon completion further acknowledges their dedication and achievement in mastering this essential programming language.

Certificate Course on Programming in Java

Academic Year: 2020-21

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1: Introduction to Java

- ❖ What is JAVA?
- ❖ Concept of class
- ❖ Introduction of Object-Oriented Programming concept
- ❖ Features of JAVA 2

Unit 2: Using Data with JAVA programs

- ❖ Constants, Literals, Variables, Keywords, Identifier
- ❖ Data types (Integers, Floating Point, Character, Boolean)

Unit:3 Array and String in JAVA

- ❖ Declaring and initializing an array
- ❖ Using two dimensional and multidimensional arrays
- ❖ Passing arrays to methods, methods of arrays fill, sort, equal, binary search

Report on Certification Course: Software Testing

Academic Year 2020-21

Course Name: Software Testing
Institution: Tulsi Computer Science & Information Technology College
Students Enrolled: 30 Lectures

The Software Testing certification course offered by Tulsi Computer Science & Information Technology College aims to equip students with essential skills and knowledge in software testing methodologies and practices. This comprehensive program consists of 30 lectures designed to provide both theoretical foundations and practical applications in the field of software quality assurance.

Completing the Software Testing certification course at Tulsi College provides numerous advantages:

- **Skill Development:** Students gain hands-on experience with industry-standard tools and methodologies, enhancing their technical skills and employability.
- **Industry Relevance:** The curriculum is designed to align with current industry standards, ensuring students are well-prepared for the job market.
- **Networking Opportunities:** Participants have the chance to connect with industry professionals and fellow students, fostering a network that can aid in career advancement.
- **Enhanced Career Prospects:** With the growing demand for skilled software testers, obtaining a certification can significantly improve job prospects and open pathways to various roles in software development and quality assurance.
- **Practical Experience:** The course emphasizes practical exercises and real-world case studies, allowing students to apply theoretical knowledge in a practical context.

Upon successful completion of the course, participants will receive a certificate from Tulsi Computer Science & Information Technology College. This certification serves as a formal recognition of the skills and knowledge acquired during the course, making it a valuable addition to students' professional qualifications.

Report on Certificate Course in Web Designing

Academic Year 2020-21

Course: Web Designing
Organized by: Tulsi College of Computer Science and Information Technology
Students Registered: 30

Tulsi College of Computer Science and Information Technology recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

Benefits of the Course

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi College of Computer Science and Information Technology was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

Certificate Course on Web Designing

Academic Year: 2020-21

Organized By: Department of PG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Fundamentals of Graphic Design

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

Unit 2. Web Development Skills

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

Unit 3. Basics of Web Designing

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications

Report on Certification Course: "Basics of Computer"

For Academic Year 2021-22

Name of Course: Basics of Computer
Organized by: Tulsi Computer Science & Information Technology College
Enrolled Students: 30 Students

The "Basics of Computer" certification course organized by Tulsi Computer Science & Information Technology College aimed to equip students with fundamental computer skills essential for the modern workplace. This report summarizes the course structure, content, and benefits experienced by the participants.

The course comprised a total of 30 lectures, each designed to cover different aspects of computer literacy.

The "Basics of Computer" course provided several key benefits to the participants:

- **Enhanced Computer Skills:** Students gained practical knowledge of essential software applications, making them more competent in various tasks.
- **Increased Employability:** With basic computer skills in high demand across industries, participants significantly improved their job prospects.
- **Foundation for Advanced Learning:** The course served as a stepping stone for further studies in computer science and related fields, paving the way for more advanced courses.
- **Confidence in Technology Use:** Participants developed confidence in navigating computer systems and the internet, which is vital in today's digital age.
- **Networking Opportunities:** Students had the chance to collaborate with peers and instructors, fostering a sense of community and support.

Upon successful completion, participants received certificates, validating their newly acquired skills and enhancing their resumes.

The "Basics of Computer" certification course at Tulsi Computer Science & Information Technology College was a resounding success. By providing a comprehensive overview of essential computer skills, the course not only prepared students for the challenges of the digital world but also enhanced their employability and opened avenues for further learning. The issuance of certificates further acknowledges the participants' commitment and achievement, reinforcing their confidence in a technology-driven environment.

Report on Certification Course: "Hardware and Networking"

Academic Year 2021-22

Course: Hardware Networking
Organized by: Tulsi Computer Science & Information Technology College
Enrolled Students: 30

The "Hardware and Networking" certification course offered by Tulsi Computer Science & Information Technology College was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi Computer Science & Information Technology College was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.

Certificate Course on Hardware & Networking

Academic Year: 2021-22

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Introduction to Computer Networks

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

Unit 2. Network Components

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

Unit 3. Protocols OSI, TCP/IP

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

Unit 4. IP Addressing & TCP/IP– IP Addressing Technique

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

Report on Certification Course: "Programming in JAVA"

Academic Year 2021-22

Course: Programming in JAVA
Organized by: Tulsi Computer Science & Information Technology College
Students Enrolled: 30

The "Programming in JAVA" certification course organized by Tulsi Computer Science & Information Technology College aimed to equip students with fundamental programming skills using the JAVA programming language. This report outlines the course structure, content, and benefits for participants.

The "Programming in JAVA" course provided numerous advantages to participants:

- **Strong Programming Foundation:** Students developed a solid understanding of JAVA, one of the most widely used programming languages in the industry.
- **Enhanced Problem-Solving Skills:** The course fostered critical thinking and problem-solving abilities through practical coding exercises and projects.
- **Career Opportunities:** Proficiency in JAVA significantly boosts employability, as it is a preferred language for many software development positions.
- **Preparation for Advanced Topics:** The course served as a stepping stone for advanced studies in software development, web development, and mobile app development.
- **Hands-On Experience:** Participants gained practical experience by working on real-world projects, enhancing their coding skills and confidence.

Upon successful completion, students received certificates, validating their skills and knowledge, which adds value to their resumes.

The "Programming in JAVA" certification course at Tulsi Computer Science & Information Technology College was a notable success. By providing a comprehensive understanding of JAVA programming, the course prepared students for various roles in the tech industry and enhanced their employability. The certification awarded upon completion further acknowledges their dedication and achievement in mastering this essential programming language.

Certificate Course on Programming in Java

Academic Year: 2021-22

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1: Introduction to Java

- ❖ What is JAVA?
- ❖ Concept of class
- ❖ Introduction of Object-Oriented Programming concept
- ❖ Features of JAVA 2

Unit 2: Using Data with JAVA programs

- ❖ Constants, Literals, Variables, Keywords, Identifier
- ❖ Data types (Integers, Floating Point, Character, Boolean)

Unit:3 Array and String in JAVA

- ❖ Declaring and initializing an array
- ❖ Using two dimensional and multidimensional arrays
- ❖ Passing arrays to methods, methods of arrays fill, sort, equal, binary search

Report on Certification Course: Software Testing

Academic Year 2021-22

Course Name: Software Testing
Institution: Tulsi Computer Science & Information Technology College
Students Enrolled: 30 Lectures

The Software Testing certification course offered by Tulsi Computer Science & Information Technology College aims to equip students with essential skills and knowledge in software testing methodologies and practices. This comprehensive program consists of 30 lectures designed to provide both theoretical foundations and practical applications in the field of software quality assurance.

Completing the Software Testing certification course at Tulsi College provides numerous advantages:

- **Skill Development:** Students gain hands-on experience with industry-standard tools and methodologies, enhancing their technical skills and employability.
- **Industry Relevance:** The curriculum is designed to align with current industry standards, ensuring students are well-prepared for the job market.
- **Networking Opportunities:** Participants have the chance to connect with industry professionals and fellow students, fostering a network that can aid in career advancement.
- **Enhanced Career Prospects:** With the growing demand for skilled software testers, obtaining a certification can significantly improve job prospects and open pathways to various roles in software development and quality assurance.
- **Practical Experience:** The course emphasizes practical exercises and real-world case studies, allowing students to apply theoretical knowledge in a practical context.

Upon successful completion of the course, participants will receive a certificate from Tulsi Computer Science & Information Technology College. This certification serves as a formal recognition of the skills and knowledge acquired during the course, making it a valuable addition to students' professional qualifications.

Report on Certificate Course in Web Designing

Academic Year 2021-22

Course: Web Designing
Organized by: Tulsi Computer Science and Information Technology College
Students Registered: 30

Tulsi Computer Science and Information Technology College recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

Benefits of the Course

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi Computer Science and Information Technology College was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

Certificate Course on Web Designing

Academic Year: 2021-22

Organized By: Department of PG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Fundamentals of Graphic Design

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

Unit 2. Web Development Skills

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

Unit 3. Basics of Web Designing

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications

Report on Certification Course: "Basics of Computer"

Academic Year 2022-23

Organized by: Tulsi College of Computer Science & Information Technology
Course Duration: 30 Lectures
Completion: Certificates Awarded

The "Basics of Computer" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental computer skills essential for the modern workplace. This report summarizes the course structure, content, and benefits experienced by the participants.

The course comprised a total of 30 lectures, each designed to cover different aspects of computer literacy.

The "Basics of Computer" course provided several key benefits to the participants:

- **Enhanced Computer Skills:** Students gained practical knowledge of essential software applications, making them more competent in various tasks.
- **Increased Employability:** With basic computer skills in high demand across industries, participants significantly improved their job prospects.
- **Foundation for Advanced Learning:** The course served as a stepping stone for further studies in computer science and related fields, paving the way for more advanced courses.
- **Confidence in Technology Use:** Participants developed confidence in navigating computer systems and the internet, which is vital in today's digital age.

Upon successful completion, participants received certificates, validating their newly acquired skills and enhancing their resumes.

The "Basics of Computer" certification course at Tulsi College of Computer Science & Information Technology was a resounding success. By providing a comprehensive overview of essential computer skills, the course not only prepared students for the challenges of the digital world but also enhanced their employability and opened avenues for further learning. The issuance of certificates further acknowledges the participants' commitment and achievement, reinforcing their confidence in a technology-driven environment.

Certificate Course on Basic Computers

Academic Year: 2022-23

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Computer Application & Basics

- ❖ Connecting Computer Components
- ❖ Computer Hardware & Software
- ❖ Basic Applications of Computer
- ❖ Components of Computer

Unit 2. Computer Operating System

- ❖ What Is An Operating System
- ❖ Basics of Popular Operating Systems: The User Interface
- ❖ Using Mouse; Using right Button of the Mouse and Moving Icons on the Screen
- ❖ Use of Common Icons, Status Bar
- ❖ Menu and Menu Selection etc.

Unit 3. Word Processing

- ❖ Printing A File
- ❖ Document Creation & Editing
- ❖ Saving
- ❖ Text Formatting

Report on Certification Course: "Hardware and Networking"

Academic Year 2022-23

Organized by: Tulsi College of Computer Science & Information Technology

Course Duration: 30 Lectures

Completion: Certificates Awarded

The "Hardware and Networking" certification course offered by Tulsi College of Computer Science & Information Technology was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi College of Computer Science & Information Technology was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.

Certificate Course on Hardware & Networking

Academic Year: 2022-23

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Introduction to Computer Networks

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

Unit 2. Network Components

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

Unit 3. Protocols OSI, TCP/IP

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

Unit 4. IP Addressing & TCP/IP– IP Addressing Technique

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

Report on Certification Course: "Programming in JAVA"

Academic Year 2022-23

Organized by: Tulsi College of Computer Science & Information Technology

Course Duration: 30 Lectures

Completion: Certificates Awarded

The "Programming in JAVA" certification course organized by Tulsi College of Computer Science & Information Technology aimed to equip students with fundamental programming skills using the JAVA programming language. This report outlines the course structure, content, and benefits for participants.

The "Programming in JAVA" course provided numerous advantages to participants:

- **Strong Programming Foundation:** Students developed a solid understanding of JAVA, one of the most widely used programming languages in the industry.
- **Enhanced Problem-Solving Skills:** The course fostered critical thinking and problem-solving abilities through practical coding exercises and projects.
- **Career Opportunities:** Proficiency in JAVA significantly boosts employability, as it is a preferred language for many software development positions.
- **Preparation for Advanced Topics:** The course served as a stepping stone for advanced studies in software development, web development, and mobile app development.
- **Hands-On Experience:** Participants gained practical experience by working on real-world projects, enhancing their coding skills and confidence.

Upon successful completion, students received certificates, validating their skills and knowledge, which adds value to their resumes.

The "Programming in JAVA" certification course at Tulsi College of Computer Science & Information Technology was a notable success. By providing a comprehensive understanding of JAVA programming, the course prepared students for various roles in the tech industry and enhanced their employability. The certification awarded upon completion further acknowledges their dedication and achievement in mastering this essential programming language.

Certificate Course on Programming in Java

Academic Year: 2022-23

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1: Introduction to Java

- ❖ What is JAVA?
- ❖ Concept of class
- ❖ Introduction of Object-Oriented Programming concept
- ❖ Features of JAVA 2

Unit 2: Using Data with JAVA programs

- ❖ Constants, Literals, Variables, Keywords, Identifier
- ❖ Data types (Integers, Floating Point, Character, Boolean)

Unit:3 Array and String in JAVA

- ❖ Declaring and initializing an array
- ❖ Using two dimensional and multidimensional arrays
- ❖ Passing arrays to methods, methods of arrays fill, sort, equal, binary search

Report on Certification Course: Software Testing

Academic Year 2022-23

Course Name: Software Testing
Institution: Tulsi Computer Science & Information Technology College
Students Enrolled: 30 Lectures

The Software Testing certification course offered by Tulsi Computer Science & Information Technology College aims to equip students with essential skills and knowledge in software testing methodologies and practices. This comprehensive program consists of 30 lectures designed to provide both theoretical foundations and practical applications in the field of software quality assurance.

Completing the Software Testing certification course at Tulsi College provides numerous advantages:

- **Skill Development:** Students gain hands-on experience with industry-standard tools and methodologies, enhancing their technical skills and employability.
- **Industry Relevance:** The curriculum is designed to align with current industry standards, ensuring students are well-prepared for the job market.
- **Networking Opportunities:** Participants have the chance to connect with industry professionals and fellow students, fostering a network that can aid in career advancement.
- **Enhanced Career Prospects:** With the growing demand for skilled software testers, obtaining a certification can significantly improve job prospects and open pathways to various roles in software development and quality assurance.
- **Practical Experience:** The course emphasizes practical exercises and real-world case studies, allowing students to apply theoretical knowledge in a practical context.

Upon successful completion of the course, participants will receive a certificate from Tulsi Computer Science & Information Technology College. This certification serves as a formal recognition of the skills and knowledge acquired during the course, making it a valuable addition to students' professional qualifications.

Report on Certificate Course in Web Designing

Academic Year 2022-23

Course: Web Designing
Organized by: Tulsi College of Computer Science and Information Technology
Students Registered: 30

Tulsi College of Computer Science and Information Technology recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

Benefits of the Course

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi College of Computer Science and Information Technology was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

Certificate Course on Web Designing

Academic Year: 2022-23

Organized By: Department of PG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Fundamentals of Graphic Design

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

Unit 2. Web Development Skills

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

Unit 3. Basics of Web Designing

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications

Report on Certification Course: "Basics of Computer"

For Academic Year 2023-24

Name of Course: Basics of Computer
Organized by: Tulsi Computer Science & Information Technology College
Enrolled Students: 30 Students

The "Basics of Computer" certification course organized by Tulsi Computer Science & Information Technology College aimed to equip students with fundamental computer skills essential for the modern workplace. This report summarizes the course structure, content, and benefits experienced by the participants.

The course comprised a total of 30 lectures, each designed to cover different aspects of computer literacy.

The "Basics of Computer" course provided several key benefits to the participants:

- **Enhanced Computer Skills:** Students gained practical knowledge of essential software applications, making them more competent in various tasks.
- **Increased Employability:** With basic computer skills in high demand across industries, participants significantly improved their job prospects.
- **Foundation for Advanced Learning:** The course served as a stepping stone for further studies in computer science and related fields, paving the way for more advanced courses.
- **Confidence in Technology Use:** Participants developed confidence in navigating computer systems and the internet, which is vital in today's digital age.
- **Networking Opportunities:** Students had the chance to collaborate with peers and instructors, fostering a sense of community and support.

Upon successful completion, participants received certificates, validating their newly acquired skills and enhancing their resumes.

The "Basics of Computer" certification course at Tulsi Computer Science & Information Technology College was a resounding success. By providing a comprehensive overview of essential computer skills, the course not only prepared students for the challenges of the digital world but also enhanced their employability and opened avenues for further learning. Report on Certification Course: "Hardware and Networking"

Academic Year 2023-24

Course: Hardware Networking
Organized by: Tulsi Computer Science & Information Technology College
Enrolled Students: 30

The "Hardware and Networking" certification course offered by Tulsi Computer Science & Information Technology College was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi Computer Science & Information Technology College was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.

Certificate Course on Hardware & Networking

Academic Year: 2023-24

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Introduction to Computer Networks

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

Unit 2. Network Components

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

Unit 3. Protocols OSI, TCP/IP

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

Unit 4. IP Addressing & TCP/IP– IP Addressing Technique

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

Report on Certification Course: "Programming in JAVA"

Academic Year 2023-24

Course: Programming in JAVA
Organized by: Tulsi Computer Science & Information Technology College
Students Enrolled: 30

The "Programming in JAVA" certification course organized by Tulsi Computer Science & Information Technology College aimed to equip students with fundamental programming skills using the JAVA programming language. This report outlines the course structure, content, and benefits for participants.

The "Programming in JAVA" course provided numerous advantages to participants:

- **Strong Programming Foundation:** Students developed a solid understanding of JAVA, one of the most widely used programming languages in the industry.
- **Enhanced Problem-Solving Skills:** The course fostered critical thinking and problem-solving abilities through practical coding exercises and projects.
- **Career Opportunities:** Proficiency in JAVA significantly boosts employability, as it is a preferred language for many software development positions.
- **Preparation for Advanced Topics:** The course served as a stepping stone for advanced studies in software development, web development, and mobile app development.
- **Hands-On Experience:** Participants gained practical experience by working on real-world projects, enhancing their coding skills and confidence.

Upon successful completion, students received certificates, validating their skills and knowledge, which adds value to their resumes.

The "Programming in JAVA" certification course at Tulsi Computer Science & Information Technology College was a notable success. By providing a comprehensive understanding of JAVA programming, the course prepared students for various roles in the tech industry and enhanced their employability. The certification awarded upon completion further acknowledges their dedication and achievement in mastering this essential programming language.

Certificate Course on Programming in Java

Academic Year: 2023-24

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1: Introduction to Java

- ❖ What is JAVA?
- ❖ Concept of class
- ❖ Introduction of Object-Oriented Programming concept
- ❖ Features of JAVA 2

Unit 2: Using Data with JAVA programs

- ❖ Constants, Literals, Variables, Keywords, Identifier
- ❖ Data types (Integers, Floating Point, Character, Boolean)

Unit:3 Array and String in JAVA

- ❖ Declaring and initializing an array
- ❖ Using two dimensional and multidimensional arrays
- ❖ Passing arrays to methods, methods of arrays fill, sort, equal, binary search

Report on Certification Course: Software Testing

Academic Year 2023-24

Course Name: Software Testing
Institution: Tulsi Computer Science & Information Technology College
Students Enrolled: 30 Lectures

The Software Testing certification course offered by Tulsi Computer Science & Information Technology College aims to equip students with essential skills and knowledge in software testing methodologies and practices. This comprehensive program consists of 30 lectures designed to provide both theoretical foundations and practical applications in the field of software quality assurance.

Completing the Software Testing certification course at Tulsi College provides numerous advantages:

- **Skill Development:** Students gain hands-on experience with industry-standard tools and methodologies, enhancing their technical skills and employability.
- **Industry Relevance:** The curriculum is designed to align with current industry standards, ensuring students are well-prepared for the job market.
- **Networking Opportunities:** Participants have the chance to connect with industry professionals and fellow students, fostering a network that can aid in career advancement.
- **Enhanced Career Prospects:** With the growing demand for skilled software testers, obtaining a certification can significantly improve job prospects and open pathways to various roles in software development and quality assurance.
- **Practical Experience:** The course emphasizes practical exercises and real-world case studies, allowing students to apply theoretical knowledge in a practical context.

Upon successful completion of the course, participants will receive a certificate from Tulsi Computer Science & Information Technology College. This certification serves as a formal recognition of the skills and knowledge acquired during the course, making it a valuable addition to students' professional qualifications.

Certificate Course on Software Testing

Academic Year: 2023-24

Organized By: Department of UG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Software Testing Concepts

- ❖ Introduction to Manual Testing
- ❖ Unit Testing
- ❖ Integration Testing
- ❖ System Testing

Unit 2. Software Development Life Cycle (SDLC)

- ❖ V model
- ❖ Waterfall model
- ❖ Agile model

Unit 3. Types of Software Testing

- ❖ Unit Testing
- ❖ Integration Testing
- ❖ System Testing
- ❖ Acceptance Testing
- ❖ White Box Testing
- ❖ Grey Box Testing Black Box Testing

Report on Certificate Course in Web Designing

Academic Year 2023-24

Course: Web Designing
Organized by: Tulsi Computer Science and Information Technology College
Students Registered: 30

Tulsi Computer Science and Information Technology College recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

Benefits of the Course

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi Computer Science and Information Technology College was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

Certificate Course on Web Designing

Academic Year: 2023-24

Organized By: Department of PG

Duration of the Course: (30 Hours)

SCHEME OF STUDY

Unit 1. Fundamentals of Graphic Design

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

Unit 2. Web Development Skills

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

Unit 3. Basics of Web Designing

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications
