## Report on Short-Term Certificate Course in "Environmental Studies"

(Academic Year 2023-24)

The Environmental Studies Course, successfully completed by participants, offers a comprehensive understanding of environmental issues, their causes, and potential solutions, emphasizing the interconnectedness of ecological, social, and economic factors.

### Objectives:

1. **Understand Ecosystems:** Explore the structure and function of various ecosystems.
2. **Analyze Environmental Issues:** Examine challenges like climate change, pollution, and biodiversity loss.
3. **Promote Sustainable Practices:** Learn about conservation strategies and sustainable development.
4. **Explore Policy and Advocacy:** Understand environmental policies and advocacy roles.

**Methodology:** The course includes:

- **Lectures:** Expert-led discussions.
- **Field Studies:** Hands-on learning in local ecosystems.
- **Group Projects:** Collaborative research.
- **Guest Speakers:** Insights from environmental experts.

**Evaluation:** Participants are assessed through quizzes, research papers, presentations, and a final exam.

## Report on Certificate Course in Tally

Academic Year 2022-23

The Certificate Course for in Tally was conducted at Tulsi College of Computer Science & Information Technology to equip students and professionals with essential accounting and financial management skills. Tally is a widely used accounting software that streamlines various business operations, making it a valuable asset in today's job market.

### Learning Outcomes

- Demonstrate proficiency in using Tally for accounting and financial management.
- Create and manage financial records for businesses.
- Generate and analyse financial reports.
- Understand and apply GST regulations within the Tally framework.
- Benefits of the Course

### Benefits of Course

- Skill Development: Participants gained hands-on experience with Tally, enhancing their employability in the accounting and finance sectors.
- Practical Application: Real-world projects allowed learners to apply their skills, bridging the gap between theory and practice.
- Certification: A certificate was awarded upon successful completion, validating participants' competencies and enhancing their resumes.
- Networking Opportunities: The course fostered connections among participants, promoting collaboration and knowledge sharing.
- Career Advancement: Knowledge of Tally is highly sought after in various industries, opening up job opportunities for graduates.

The Certificate Course in Tally conducted by Tulsi College of Computer Science & Information Technology was a resounding success. It provided participants with valuable skills and knowledge in accounting and financial management, equipping them for future career advancements. The distribution of certificates further recognized their achievements and commitment to professional development.

Report on Certificate Course "Fashion Designing"  
Academic Year 2021-22

## Introduction

Fashion designing is a creative field that focuses on the design, development, and production of clothing and accessories. This report provides an overview of the Fashion Designing course, its structure, learning outcomes, and the skills developed during the program.

## Key Subjects Covered

The course curriculum is designed to provide a comprehensive understanding of fashion design.

- **Introduction to Fashion Design:** Basics of design principles, history of fashion, and understanding of various clothing types.
- **Textile Science:** The study of fabrics, their properties, and how to choose materials based on design requirements.
- **Pattern Making and Draping:** Techniques for creating patterns and shaping fabric on mannequins.
- **Sewing and Garment Construction:** Practical skills in stitching, cutting, and assembling garments.
- **Sustainability in Fashion:** Focusing on eco-friendly designs, sustainable practices, and ethical fashion.

## Skills Acquired

The course equips students with both practical and theoretical skills, including:

- **Creativity:** Ability to generate innovative design concepts and incorporate global trends.
- **Technical skills:** Sewing, pattern making, garment construction, and CAD software.
- **Attention to detail:** Focusing on accuracy in designing, stitching, and creating prototypes.
- **Problem-solving skills:** Addressing challenges in garment design, materials, and fit.
- **Communication skills:** Effectively communicating design ideas and collaborating with other industry professionals.

## Conclusion

A Fashion Designing course provides students with the foundational skills and knowledge necessary to succeed in the fast-paced and creative world of fashion. By offering a blend of theoretical learning and practical experience, students are prepared to enter a wide range of career opportunities, from designing clothing collections to working in the fashion business.

**Certificate Course on Web Designing**

Academic Year: 2020-21

Organized By: Department of PG

Duration of the Course: (30 Hours)

**SCHEME OF STUDY**

**Unit 1. Fundamentals of Graphic Design**

- ❖ Graphic Design Principles
- ❖ Key concepts of Graphic designing
- ❖ Accessibility
- ❖ Design and Development
- ❖ Understanding typography
- ❖ Color Theory
- ❖ Tips for Photoshop and illustrator

**Unit 2. Web Development Skills**

- ❖ Front-end Development Skills,
- ❖ Back-end Development Skills:
- ❖ Responsive Web Designing Skills,
- ❖ Analytical Skills,
- ❖ Collaboration Skills,
- ❖ Testing and Debugging Skills

**Unit 3. Basics of Web Designing**

- ❖ how to design a website
- ❖ Creating different themes for different layouts
- ❖ How to design the look and feel of a website
- ❖ How to create and design banners, advertisements, etc.
- ❖ Learning about the tools and techniques of web design covers using software applications

**Report on Certificate Course in Web Designing**

**Academic Year 2020-21**

Course: Web Designing  
Organized by: Tulsi College of Computer Science and Information Technology  
Students Registered: 30

Tulsi College of Computer Science and Information Technology recently organized a comprehensive Certificate Course in Web Designing aimed at equipping participants with essential skills and knowledge in the field of web development. The course consisted of 30 engaging lectures that covered a wide range of topics, from the basics of HTML and CSS to advanced techniques in JavaScript and responsive design.

**Benefits of the Course**

- **Skill Development:** Participants gained practical skills in web design that can be applied in real-world scenarios.
- **Career Opportunities:** The knowledge acquired can open doors to various job opportunities in the rapidly growing tech industry.
- **Portfolio Building:** The course enabled participants to create a project that showcases their abilities to potential employers.
- **Networking:** Participants had the chance to connect with peers and industry professionals, fostering valuable relationships for future collaborations.
- **Continued Learning:** The foundational knowledge provided serves as a stepping stone for further study in advanced web development topics.

The Certificate Course in Web Designing organized by Tulsi College of Computer Science and Information Technology was a resounding success, providing participants with essential skills and knowledge needed in today's digital landscape. With the completion certificates, graduates are well-prepared to embark on their journey in web design and development, contributing to the evolving field of technology.

IQAC Co-ordinator

Tulsi College of Computer Science & Information Technology

Subject: regarding permission for certificate course in academic year 2019-2020

Respected sir,

It is our immense pleasure to start certificate course on different topics as per as it is needed to develop the student's carrier. The courses, their syllabus is defined by the concerned HoD. after discussion with their team members and also approved by IQAC as per as demand of students.

The list of course and details are given below. Please consider it.

| Sr.No | Course Name             | Duration                 | Expected No of students | Course Coordinator |
|-------|-------------------------|--------------------------|-------------------------|--------------------|
| 1     | Tally                   | 15 Days<br>(30 Lectures) | 30                      | Mirza S. S         |
| 2     | Programming in Java     | 15 Days<br>(30 Lectures) | 30                      | Surve A. P         |
| 3     | Hardware & Networking   | 15 Days<br>(30 Lectures) | 30                      | Waghmare K. S      |
| 4     | Personality Development | 15 Days<br>(30 Lectures) | 30                      | Dr.Waghmare V.M    |

Deogiri Prathishthan's  
**Tulsi College of Computer Science & Information Technology**

**Certificate Course on Hardware & Networking**

**Academic Year: 2019-20**

Organized By: Department of UG

Duration of the Course: (30 Hours)

**SCHEME OF STUDY**

**Unit 1. Introduction to Computer Networks**

- ❖ Definition, Advantages, Architecture: Peer-to-Peer and Client/Server Network
- ❖ Network Topologies – Star, Ring, Bus, Tree, Mesh, Hybrid
- ❖ Types of Network: Local Area Network (LAN), Metropolitan Area Network (MAN), Wide Area Network (WAN), Intranet and Internet. Wi-Fi, Bluetooth.

**Unit 2. Network Components**

- ❖ Modems, Firewall, Hubs, Bridges, Routers, Gateways, Repeaters, Transceivers
- ❖ Switches: their functions, advantages and applications.

**Unit 3. Protocols OSI, TCP/IP**

- ❖ Simple Mail Transfer Protocol (SMTP), Telnet, File Transfer Protocol (FTP), Hyper Text Transfer Protocol (HTTP). Setting IP Address (IP4/IP6) & Subnet Mask, Classes of IP Addressing.
- ❖ Introduction to Network Security, Concept of Dynamic Host Control Protocol

**Unit 4. IP Addressing & TCP/IP– IP Addressing Technique**

- ❖ (IP4/IP6) and Subnetting and Supernetting the network
- ❖ Installation and Configuration of TCP/IP Protocol
- ❖ Practice TCP/IP Utilities: PING, IPCONFIG, HOSTNAME, ROUTE

## Report on Certification Course: "Hardware and Networking"

### Academic Year 2019-20

**Organized by:** Tulsi College of Computer Science & Information Technology  
**Course Duration:** 30 Lectures  
**Completion:** Certificates Awarded

The "Hardware and Networking" certification course offered by Tulsi College of Computer Science & Information Technology was designed to provide students with essential knowledge and practical skills related to computer hardware and networking technologies. This report outlines the course structure, content, and benefits for participants.

The "Hardware and Networking" course offered numerous benefits to the participants:

- **Technical Proficiency:** Students acquired valuable skills in hardware assembly and networking concepts, essential for IT roles.
- **Career Opportunities:** Proficiency in hardware and networking is in high demand, enhancing participants' employability in the tech industry.
- **Foundation for Further Studies:** The course provided a solid foundation for advanced studies in networking, cybersecurity, and IT management.
- **Practical Experience:** Hands-on projects allowed students to apply theoretical knowledge, boosting their confidence and competence.
- **Networking Skills:** Participants learned to effectively troubleshoot and manage network systems, crucial skills for IT professionals.

Upon completion, students received certificates, acknowledging their hard work and newly acquired skills, which enhances their resumes.

The "Hardware and Networking" certification course at Tulsi College of Computer Science & Information Technology was a significant success. By providing a comprehensive understanding of hardware and networking, the course prepared students for various roles in the IT sector and enhanced their employability. The certification awarded upon completion further validates their skills and commitment to professional development.
